

## 105397 - Ruling on putting a zipper on a woman's dress

---

### **the question**

Is it permissible to put a zip on any part of a woman's wear; on the back, the side, or on the chest?

### **Detailed answer**

Praise be to Allah.

There is nothing wrong with putting a zipper on a woman's dress, and there is no limit to where it may be placed on the dress. It depends on where you think is best for it and what is concealing.
