21400 - Removing the hair between the eyebrows

the question

Is removing the hair BETWEEN the eyebrows permissible for men?

Detailed answer

Praise be to Allaah.

It is permissible to pluck it, because it is not part of the eyebrows. And Allaah is the Source of strength. May Allaah send blessings and peace upon our Prophet Muhammad and his family and companions.

From Fataawa al-Lajnah al-Daa'imah, 5/197

This ruling applies to both men and women. And Allaah knows best.
