2166 - Ruling on doing wudoo' when one has food particles between one's teeth

the question

When we eat we get food particles between our teeth. If we do wudoo' or ghusl and we cannot remove these food particles, is our wudoo' or ghusl valid?

Detailed answer

Praise be to Allah.

Your wudoo' or ghusl is valid even if there are some food particles left between your teeth, but it is better to remove them.
