2488 - Decorating a room with peacock feathers

the question

salam;
i have recently redecorated my bedroom and have used peacock feathers in one piece of decoration.
My question is then what does Islam say about such use, is it permitted or not, can one pray in the room.
Many thanks.

Detailed answer

Praise be to Allah.

There is nothing wrong with using peacock feathers for decoration, and there is nothing wrong with praying in the place you mention. And Allaah knows best.
