

21791 - Does Applying Cream invalidate wudu?

the question

Does the cream which people use on their hands and face invalidate wudu or not?

Summary of answer

Applying cream on the face does not break wudu nor does it break the fast.

Detailed answer

Praise be to Allah.

For a woman to [use cream](#) on her face does not break wudu, neither does it break one's fast. Similarly, [using lipstick does not break one's wudu](#) or [one's fast](#) . When one is fasting and these cosmetics have any flavor, they should not be used in any way that may lead to the flavour reaching the throat.

And Allah knows best.
